

# SHININGSTARS

## OCTOBER CURRICULUM

### Big Idea of the Month

#### Character Discovery

Last month our ShiningStar Students aced the foundation of acting... characterization! They learned to use physicality, vocal changes & emotion to be various objects. We are taking that concept to the next level by having our stars characterize different types of characters.

### Featured Game

*Dreaming Dreaming, all my friends are dreaming...*

What are we dreaming about? We are dreaming about what we can be. Is it a superhero? Or maybe it is a hero we see daily, like our SuperParents and Wonder Teachers! Our featured game continues to build everyone's creativity and confidence while teaching our stars to work together as a group.

### Tongue Twister

*Big black bats blow big bubbles before bedtime*

Tongue Twisters are a fun and great method to improve articulation, enunciation and fluidity of speech. Tackle our tongue twister each day with you child to help your star with enunciation and articulation!

*— Coach Anna Lin*

The ShiningStars mission is to mold our students into brave, creative leaders. Our philosophy and curriculum instill confidence in children to clearly communicate their thoughts and feelings with the world, fearless of large crowds and intimidating settings.
